Three McCarter & English partners have been recognized in Intellectual Asset Management, the prestigious bi-monthly publication that acknowledges the world's leading patent professionals. McCarter's Massachusetts and New Jersey service areas were also recommended for transactional, litigation and prosecution capabilities.

This year's list includes the following lawyers:

Erik Paul Belt (Boston, Litigation)

Lee Carl Bromberg (Boston, Litigation)

Beverly W. Lubit (New Jersey, Prosecution & Transactions)

IAM Patent 1000 is created through an extensive research process conducted over several months by a team of full-time analysts, involving more than 1,500 interviews with patent practitioners worldwide.

McCarter's renowned IP team has over 125 intellectual property and information technology lawyers, technical specialists and patent agents in all nine of the firm's locations. The team draws upon its experience in patent prosecution and litigation, technology licensing and transfer, corporate transactional and general business matters to assist clients in building and managing patent portfolios that best serve their strategic business goals, whether developing patent portfolios for pre-clinical products of early-stage companies or blockbuster biologics for major pharmaceutical companies.
