Most family law practitioners know the ins and outs of drafting and negotiating prenuptial agreements. But, how do they handle more complex issues that arise when representing a diverse set of clients, each with his or her own unique goals concerning the protection of assets, whether acquired through the client's own efforts or passed down by older generations? This article touches on the basics regarding enforceability of prenuptial agreements under New Jersey law, and discusses some of the difficult situations that may arise when counseling clients and how one might handle them.
