

Mortgage holder—Secured creditor representation

10.15.2019

Successfully represented a mortgage holder with a \$12 million claim in a bankruptcy matter where the debtor entities engaged in a Ponzi scheme involving more than 20 commercial properties and many lenders. Caused rental revenue to be segregated for the benefit of the client, obtained a release so that no claims were brought against the client, and exited the bankruptcy with title to the property within nine months of the bankruptcy filing. Substantial recovery for the client in a relatively short period.
